Fairfield, ME 04937**

**Competitive Bid
Request for Proposal
Video Captioning System**

Addendum 1
21 June, 2016

Pursuant to Section 7.0 Interpretation of Contract Documents the following inquiry and reply has been issued in the form of Addendum #1 regarding KVCC's Competitive Request for Proposal Video Captioning System, dated 14 June, 2016.

Question #1 – Email received 06/21/16

We received notice that Kennebec Valley Community College had released an RFP for a Video Captioning System, and we have two questions:

1. To clarify, you are looking for software or hardware solution, correct?
2. We can provide an automated-assisted closed captioning service. If this RFP was intended for software, is it permissible for closed captioning companies to propose their workflow and price, rather than software?

Reply #1 – Emailed 06/21/16

1. To clarify, KVCC is looking for a video captioning system that will automatically generate captioning on lecture videos. This includes both the hardware and the software.
2. Pursuant to Section 1.0 Overview of the Video Captioning System RFP, KVCC will consider alternate recommendations, however preference will be given to proposals conforming to the specifications.
