

POSITION ANNOUNCEMENT

DATE: March 13, 2017

POSITION TITLE: Site Survey Adjunct Faculty & Curriculum Developer – Fall 2017 Semester
TAACCCT IV Grant Funded

INSTITUTION: Kennebec Valley Community College (KVCC) is a 2-year comprehensive community college in the center of Maine serving approximately 2400 students from Somerset, Kennebec, and Knox counties and well beyond. In 2014, KVCC expanded its Fairfield-based operation to include a new 600-acre Harold Alfond Campus in Hinckley, Maine. Over the past three years, KVCC has invested nearly \$30 million in college programs, infrastructure, and buildings including construction of the new KVCC Center for Science and Agricultural Education, the 120-acre organic farm at KVCC (including education facility, vegetable processing center, equipment, implements, systems, soils, livestock, greenhouses, shelters, fields), a new state-of-the-art culinary arts facility and demonstration kitchen, the largest carpentry lab in the northeast, an indoor electrical lineworker training facility, two medical simulation labs, an early childhood outdoor family education lab, a CNC machine tool lab, a welding lab, and many other important updates including a vast overhaul of IT equipment, software, and computers. KVCC's new Alfond Campus and the revitalized Fairfield campus offer an unparalleled environment for inspiring new academic energy and innovative thinking. KVCC is a collegial environment emphasizing student success and respect for employees, students, and the community.

SALARY: Salary and benefits commensurate with the Agreement between the Maine Community College System Trustees and the MSEA Adjunct Faculty Bargaining Unit.

QUALIFICATIONS: A Bachelor of Science in Civil Engineering, Construction Management, or Construction Management Technology or a relevant Associate's degree along with a minimum of five (5) years of progressive experience in construction site layout and planning is required. A Bachelor's or Master's degree with a specialization in quantitative land survey, teaching experience, and a working knowledge of environmental principles in site evaluation and design are desirable. Other combinations of professional licenses, certifications, education, and experience will be considered. Demonstrated professionalism and interpersonal skills in collaborating with colleagues and directing students are essential.

RESPONSIBILITIES: To provide instruction that covers introduction to surveying principles, equipment, and terms. Provide the student with an understanding of surveying and where it fits into a construction project. The course covers the principles of measurements of distances, elevation, and angles. It includes basic error theory in measurements and calculations, traverse calculations, and basic principles of surveying and mapmaking. Lab work: either instructor demonstration or hands-on student activities that meet outlined learning objectives.

APPLICATION PROCEDURE: Initial review of applications will begin immediately and will continue until the position is filled. Submit the following: cover letter, resume, **official** transcript of highest degree earned, and the KVCC Application for Employment (visit: <http://www.kvcc.me.edu/employment> and download form) to:

mbrennan@kvcc.me.edu
Monica L. Brennan

*This position is paid for by a grant from the U.S. Department of Labor, Employment and Training Administration.
