Windows Client
Configuring Windows 7 and Windows 8
(CCT-W10-HYA)

Course Description:
The Windows Client Pro Certification course prepares students to install, manage, and troubleshoot both the Windows 7 and the Windows 8 operating systems in a business environment. The course focuses on configuration tasks performed at the client computer, including those performed by a desktop administrator in a small, medium, or large business.

This course meets the specifications and prepares students for three industry certification programs:

- TestOut Windows Client Pro Certification exam
- Configuring Windows 7 Exam (70-680)
- Configuring Windows 8 Exam (70-687)

Professional IT Certification Exams:
TestOut Windows Client Pro Certification: An industry certification which measures both knowledge and job performance skills. The comprehensive Windows Client Pro Certification will prove you have the knowledge, skills and experience to effectively support the Microsoft client side operating systems, Windows 7 and Windows 8.

Microsoft (70-680) Certification Exam: Passing the 70-680 certification exam gives students a MCTS (Microsoft Certified Technology Specialist) certification, which can also be used as the client operating system requirement for the MCITP (Microsoft Certified IT Professional) Enterprise Administrator certification.

Microsoft (70-687) Certification Exam: Passing the 70-687 certification exam counts as credit toward the Microsoft Certified Solutions Associate (MCSA): Windows 8.

Course Delivery Format:
Configuring Windows 7 and Windows 8 is a hybrid course (online-with limited campus sessions) in which course lectures, demonstrations, quizzes, and labs are delivered online. Two on campus sessions are required, held at Kennebec Valley Community College.

- Orientation Session: 2 Hour Session
- Exam Session: 2 Hour Proctored Security Pro Certification Exam

Note: Students may register for the course up to two weeks after the orientation date. Cost is $305.00 and includes the course material, course software, TestOut Windows Client Pro Exam and KVCC Instructor support. Students will be assisted in the purchase and exam registration for the related Microsoft Certification exam.
